WALHALLA, S. C.

WEDNESDAY, AUGUST 18, 1915.

NO HOTEL ACCOMMODATIONS.

To-day Walhalla is handicapped to a greater extent than she has ever been. The business or other visitor to this town is forced to seek his meals and shelter where he can find them, and not infrequently the task is an arduous one. Walhalla is absolutely without hotel accommodations. We have boarding houses—some as good as will be found anywhere—but that is not the point. No boarding house can take the place of a hotel. The fact is that with the erection of a modern hotel in Walhalla the town will need every bit of the present boarding house accommodation that she now has, and more.

Col. M. V. Richards and E. L. Merritt, his co-worker in the development department of the Southern Railway, were here for a day last week looking over the situation, and they promise the assistance of this great road in putting the proper kind of combination commercial and tourist hotel prominently before the people of the country. That sort of hotel is what Walhalla needs. It is what Walhalla must have if she is to overcome the present handicap. Both Mr. Richards and Mr. Merritt feel confident of the success of such an enterprise properly launched. They have no hot air to expend. They are plain, practical business men engaged in lending aid to developing a section in which their great railway system is deeply interested. They feel that Walhalla and her immediate vicinity have the qualifications essential to large development at a minimum of effort and expenditure.

Now, the question is, What are we going to do? The practical thing to do, as we see it, is to get together at once, devise ways and means for the securing of just such a hotel as Walhalla stands so badly in need, and at the earliest possible date. The business men of Walhalla are favorable to

the idea, and are ready to throw open their hands to the project.

Men, has kindly offered to throw open his hall on Main street for a meeting Thursday night of this week. Make an effort to attend this meeting, and come determined to lend your assistance to the limit of your ability. The business people of Walhalla can devise the way and provide the means for the accomplishment of the end desired. All that is necessary is the united and determined efforts of all the citizens interested in the welfare of the town.

Let us all be at Pitchford's Hall Thursday night of this week by 8:30 o'clock, each prepared to do every thing possible in the preliminary work that will be necessary.

Reading or working without needed glasses or with badly fitted ones is a sin against your eyes.
